C41 PROCESSING

B+W PROCESSING

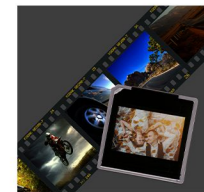

120 PROCESSING

126 PROCESSING

With years of experience in processing film, DS Colour Labs is one of the UK's leaders in film processing . All films are monitored throughout the day through the Fuji Oasis Quality control system. Our quality and service is second to none. Each negative is screen assessed, colour and density corrected to provide you with the highest quality work.

E6 SLIDE PROCESSING

APS PROCESSING

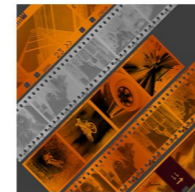

110 PROCESSING

LOMO PROCESSING

Due to the decline in film and advances in digital photography many laboratories have now ceased providing a film processing service but we still have a large customer base who use many different types of film. We believe there is still a place for quality processed film!
